
100 justifications written by the agent (Qwen3-VL + tools); each grader saw the text, the true FFT value and 8 frames of the clip.
Error bars: 95 % Wilson intervals. Inter-grader κ = 0.54 (agreement 85 %); calibration against the author on 20 items: κ 0.3–0.7 across runs.
Tool values are quoted exactly in every case; internal inconsistency of the reasoning: 4–6 %.
